Preposition

A preposition is an important part of the English language. It is used to show a relationship between a noun or pronoun in a sentence and another word in the sentence. A preposition must always be followed by a noun or pronoun in a sentence. It can never be followed by a verb.

There are many preposition examples that will make it easy to understand how the parts of a sentence fit together and how the rules apply when it comes to using a preposition in a sentence.

There are five different types of prepositions:

- Simple prepositions
