They continued to constantly discourage them as the two frogs tried to jump out of the pit. But keep falling back.

Soon, one of the two frogs started to believe the other frogs – that they'll never be able to escape the pit and eventually died after giving up.

The other frog keeps trying and eventually jumps so high that he escapes the pit. The other frogs were shocked at this and wondered how he did it.

The difference was that the second frog was deaf and couldn't hear the discouragement of the group. He simply thought they were cheering him on!
