**Simple Present Tense**

### What is a Simple Present Tense?

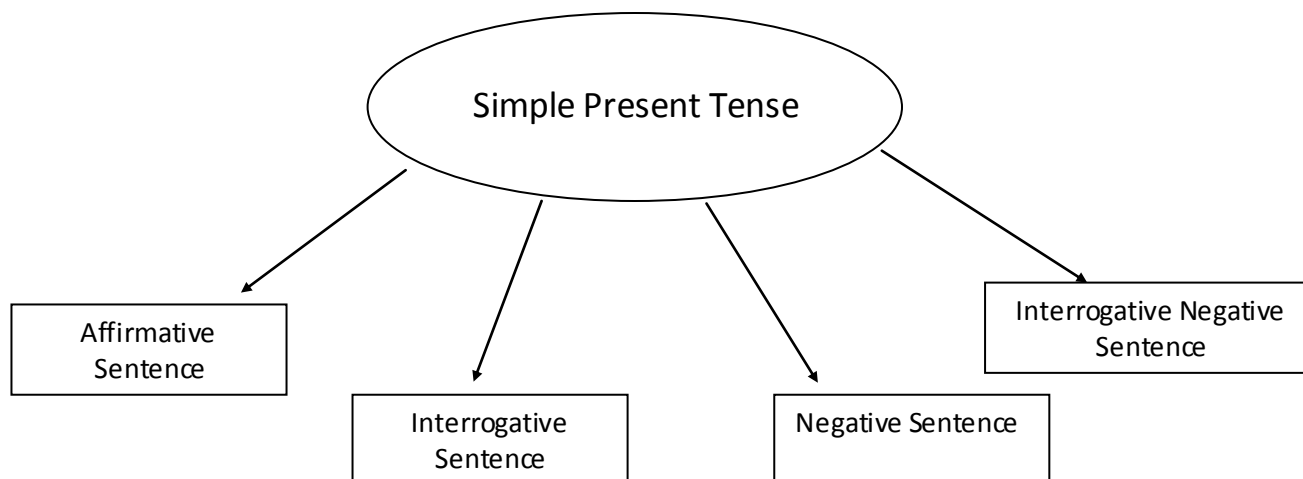

The simple present is a verb tense with two main uses. We use the simple present tense when an action is happening right now, or when it happens regularly (or unceasingly, which is why it's sometimes called present indefinite). Depending on the person, the simple present tense is formed by using the root form or by adding -s or -es to the end.

#### Example

The sun rises in the east.

Does the sun rise in the east?

The sun does not rise in the east.
